

## Guns

### Verse 1

Running children all around your house  
Your son's Birthday, time to celebrate!  
A loaded weapon lays under your bed  
A kid just found it... you hear bang, bang, bang!

What just happened? How they'd found your gun?  
You asked your self - It was in the safe...  
Well kids are kids, but they are not always dumb  
Now it doesn't matter, one of the boys is gone!

### Chorus

I just don't get it and I never will  
Understand why we still do this  
I know it isn't safe to live in a world like this

### Verse 2

Sick and tired hearing about kids die  
Because stupid parents need a rush to live  
Play with your monkey if you need a relief  
Don't put a weapon in the hands of kids

Pain will end this game  
If we don't stop what is insane  
That's our fault, the will to bleed.

### Chorus

I just don't get it and I never will  
Understand why we still do this  
I know it isn't safe to live in a world like this

### Interlude

More guns doesn't mean we're safe

## Captain Bliss

### Verse 1

Every morning I eat my breakfast alone.  
Just me and the man in the mirror at home.  
I talk loud to myself when alone,  
despite of my annoying voice.  
But things get harder when I am at work.  
I feel more ignored than a red light or god.  
Assuming I'm the nice guy who's always fun  
can't understand why they laugh about me

### Chorus

The one show in my mind, that let's me live my life  
Surrounding all the ones that I can't stand and fight  
Create a world you can't imagine  
So now is time to die

### Verse 2

During the break I have lunch at the store  
their club sandwich with pickles I love.  
Right after that I like to think who'll be next  
the next victim for the movies in my head.  
It's much easier than you can imagine  
Technology available is magic.  
Easy explained: It destroys people's lives.  
Just type some code and their souls are all mine.

### Chorus

#### Interlude

Technology available is magic.  
It destroys people's lives.

For all the ones who don't believe in god  
Well now it's time to change your mind

## Waiting

### Verse 1

Some years ago in my room  
I was alone and insecure  
In this cruel world I wasn't able to find love  
And love wasn't able to find me

### Bridge

I was searching, I was trying to find someone  
But luck wasn't on my side... so I stopped.  
Then I met you...

### Chorus

Oh oh oh, We are waiting!  
That love will always be around us

### Verse 1

Well I think no one deserves to be alone  
There's plenty of people well spread all around the globe  
I know that as a fact  
No need to rush, get crazy and pick up a rotten one  
Just be open for a change, time will guide you right  
Time will guide you right

### Bridge

I was searching, I was trying to find someone  
But luck wasn't on my side... so I stopped.  
Then I met you...

### Chorus

Oh oh oh, We are waiting!  
That love will always be around us

### Outro

Love is around us  
All around us

## El Ser Actual

### Verse 1

No puedo y no quiero entender  
A quienes luchan contra el bien  
Como alguien puede usar el mal  
De tal manera y sin dudar  
Causando daño y mucho más  
Sin saber qué va a ganar

Sin sentir, ver sufrir  
a muchos les da igual

### Chorus

Nunca seré – alguien cruel que se atreva a engañar  
Nada podrá – hacer un canalla de mi  
Yo hasta el final – seré un mensajero del bien  
Sin importar – en la situación que yo este

### Verse 2

Cualquier excusa se va a usar  
Para llenarse más y más  
Los bolsillos con lo ajeno  
Sin importar el perdedor

Sin sentir, ver sufrir  
a muchos les da igual.

### Chorus

StereoDrama - X (EP 2019) - Lyrics

## Incarceration

### Verse 1

So many sitting behind bars  
All marked with a criminal stamp for life  
A stamp that will not let them get a job or education  
Mass incarceration, the new standard for our protection  
To sleep well at night  
Get all minorities behind bars?

### Chorus

We are all innocent  
Until someone can prove we are guilty

### Verse 2

We are all supposed to have the right  
For a fair trial to show the facts  
Before declared guilty  
The need of prove beyond a doubt  
  
No one can't sit and listen  
To all the lies we know they are preaching  
Without losing our minds  
Losing control and our lives.

### Chorus
